Computer Request Form

We have four classes of computers to choose from; Good, Better, Best and Custom.

Please let us know which class of computer you are interested in purchasing and we will provide you with the specific details of our current stocked computer with pricing.

Good

Approximate Price Range: \$300-\$400

This is a great portable laptop computer for checking email on the road, and basic word processing. Generally, these computers are more robust, and can withstand harsh conditions.

We do not recommend this type of computer for any more sophisticated programs, such as QuickBooks, and Auto Cad.

- Display: Small, portable screen 11-13"
- Hard Drive: Limited drive space (32-128GB)
- Memory: 4GB
- Operating System: Windows 10 (Likely Home Edition)

Better

Approximate Price Range: \$400-\$500

This is a good all-around laptop computer, powerful enough to handle Microsoft Office, QuickBooks, and other similar productivity software.

- Display: Small, portable screen 13-16"
- Hard Drive: 250GB- 1TB
- Memory: 4-8GB
- Operating System: Windows 10 (Likely Home Edition)

Best

Approximate Price Range: \$500-\$800

This is our most powerful stocked laptop computer option. This device is capable of running CAD, and other more advanced software applications. It has plenty of hardware space for large files, and a generously large sized screen. This our more powerful, but least portable option.

- Display: Small, portable screen 15-18"
- Hard Drive: 1TB- 2TB
- Memory: 6-8GB
- Operating System: Windows 10

Custom

You give us your specifications, needs and/or requirements and we will research the best computer for you. If you prefer a desktop computer, we can also research, obtain and preconfigure that for you.
